

When U Played Me

Lyrics : Skye Compose : Skye Arrangement : WENDY

When you played me was it easy to run to someone else
We were hopeless and I know that your not the one for me

So now I'm done thinking about you
So runaway have a good time
Honestly fuck your goodbyes

When U played me was it easy to run to someone else
We were hopeless and I know that your not the one for me

And I don't want u by my side
And I don't want u in my life
So play along so play along
Like you played me

We were hopeless but it's ok I had you all in my dreams
We weren't perfect but it's ok
It's just a fantasy

I loved you like nobody else could but you left me for that guy from your school

When U played me was it easy to run to someone else
We were hopeless and I know that your not the one for me

And I don't want u by my side
And I don't want u in my life
So play along so play along
Like you

And I sold my heart to a girl I fell in love
Fell in love

When U played me was it easy to run to someone else
We were hopeless and I know that your not the one for me

And I don't want u by my side
And I don't want u in my life
So play along so play along
Like you played me
